IMPORTANT: The Massachusetts Junior Conservation Camp has a limited number of spaces each year. Spaces are filled on a first come, first served basis. Each year, the acceptance process runs into delays. Sometimes clubs delay sending in names to go with their reservations, and sometimes the youth(s) decide not to go and fail to inform us. You can help ensure a smooth acceptance process by:

- Communicating whether you will be sending boys or girls as soon as possible.
- Sending in the names and addresses of the campers prior to May 1st.
- Making sure the campers know the new Camp dates.
- Double checking with your campers in early June to make sure they have sent in their paperwork and are planning to go.
